Dear Parent/Guardian

Re. 16-19 Bursary Fund

In September 2011 the Government introduced a 16-19 Bursary Fund to help Post 16 students facing financial hardship to stay in full-time education.

James Rennie School has produced a policy and application form for the use and distribution of the fund which are also linked on our website.

I have also linked some information regarding Employment and Support Allowance for those parents who have not heard of this and are interested in applying for their child. This is linked on our website. It is recommended that applications are made over the telephone on the number detailed on the information. *Please note that if a student is getting Disability Living Allowance or Personal Independence Payments, and Employment Support Allowance or Universal Credit, parents can no longer receive certain household/family benefits for that child, such as child benefit.*

If you think you are eligible to make an application then please complete the application form and return to Lucy in the Sixth Form office.

Should you have any queries or wish to discuss the content of this letter further please do not hesitate to contact either myself or Lucy.

Yours sincerely

Seen & approved but not signed
